

Educator's School Safety Network is uniquely qualified to assist your school or organization for three important reasons:

### 1 PROVEN

We train educators in low-cost, research-based crisis response and violence prevention measures that are proven to be effective, such as threat assessment management, strategic supervision, and visitor engagement.

### 2 AFFORDABLE

Most school safety companies and trainers are for-profit entities. As a non-profit, our trainings and resources are research-based and affordable.

### 3 EMPOWERING

Unlike most school safety organizations, we come from an educational, not law-enforcement, perspective. As a career educator with 28 years of experience as an administrator and teacher, founder Dr. Amy Klinger understands the critical need to empower, not intimidate, educators to prevent violence and appropriately respond to crisis events.
